Dolphin® Components has developed two Universal BNC Connectors, the DC-2510 (True 50 Ohm) and the DC-2710 (True 75 Ohm). These connectors are precisely engineered and designed to offer high frequency connections that handle high bit rate digital video signal transmissions in conjunction with an excellent return loss value up to 3 GHz.

These connectors are crafted using anti-corrosion nickel and gold plated brass, along with Teflon insulators. The Teflon insulators seal the gaskets preventing moisture from reaching the cable contact area.

FEATURES AND BENEFITS
- Saves Money
- Saves Time
- Easy to Assemble
- Fool Proof Connections
- All-In-One Package
- Durable
- Excellent Performance
- Outstanding Value!

ELECTRICAL CHARACTERISTICS
- Impedance: True 50 and 75 Ohms
- Rated Working Voltage: 500 Volts, RMS
- Frequency Range: 0-4 GHz
- Insulation Resistance: 5000 Megohms

MATERIALS
- Body Components: Brass, Anti-corrosion Nickel Plating
- Male Contacts: Brass, Gold Plating
- Crimp Ferrule: Copper, Anti-corrosion Nickel Plating
- Gaskets: Silicone Rubber
- Dielectric: Teflon

APPLICATIONS
- Data Networking
- Audio/Video
- Telecommunications
- Security Systems
- CCTV
- Antennas
- Broadcasting
- Instrumentation

ACCEPTS 7 DIFFERENT CABLES
